

How Oasis-Talk uses client data

Protection of your confidential patient information is taken very seriously. Information Governance (IG) and GDPR across health and care ensures your data is looked after in accordance with good practice and the law.

Oasis Talk will take every step to:

- ensure data remains secure
- use anonymised data whenever possible
- make best use of confidential patient information to benefit health and care
- not use confidential patient information for marketing or insurance purposes (unless you specifically request this)
- make it clear why and how data is being used
- respect your decision if you decide to opt out
- only use information about you where allowed by the law

If you have any questions you can contact Debbie Leach, Operations Manager and SIRO on 0117 970 9423.
